

1 SPOT Safety Instructions

1. Warning:

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus should not be exposed to dripping or splashing or any objects filled with liquids.

Explanation of WARNING symbols:   

- The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of not isolated dangerous voltage inside the product that may be of sufficient magnitude to constitute a risk of shock if the unit was opened.
- The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and servicing instructions in the literature accompanying the appliance.
- The double squares symbol indicates that this product incorporates double insulation.

2. Specifications:

Rated input voltage: 100Vac – 240Vac.

The max ambient temperature: 35°C.

Lower-Limit 100Vac,

Normal: 115Vac/60Hz~230Vac/50Hz

Upper-Limit: 240Vac.

Rated output voltage: +9Vdc

Min. Load: 0A Max. Load: 1.7A

Output Polarity: +  -

Important Safety Instructions:

- 1) Read, follow, and keep these instructions, heeding all warnings.
- 2) Do not use this adapter near water.
- 3) Clean only with dry cloth.
- 4) Do not install within 4" (100mm) of any heat sources such as radiators, heaters, stoves, or other devices or appliances that produce heat.
- 5) Protect the power cord from being walked on or pinched, particularly at plugs and the point where they exit from the adapter.
- 6) Only use attachments/accessories specified by the manufacturer.
- 7) Unplug this adapter during lightning storms or when unused for long periods of time.
- 8) This adapter is not serviceable. If it works incorrectly or stops working, please contact original retailer, distributor, or the manufacturer. **DO NOT ATTEMPT TO OPEN THE ADAPTER.**

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by Truetone could void the user's authority to operate the equipment.
