

# GarageTone™

## Chainsaw Distortion

The GarageTone "Chainsaw" Distortion from Visual Sound is a unique and very musical distortion in contrast to its name. Sounding more like an expensive boutique distortion, the pedal is shockingly affordable. With big low-end and just the right amount of mids and highs, this creamy distortion will inspire you. Combine it with the GarageTone Drivetrain or V2 Route 808 pedal to get massive lead tones!

Here are some sample settings to get you started:
